Profile Summary

Final year Information Systems undergraduate at the University of Colombo School of Computing with hands-on industry experience in full-stack development. After successfully completing a 6-month internship as a Full Stack Developer, I was offered a permanent position as an Associate Software Engineer. Interested in machine learning and web-based application development, with practical experience in frontend and backend technologies.

Professional Experience

White Star Web Solutions

Associate Software Engineer (Promoted from Intern)

Since October 2025

- Developed and maintained features across the full stack for production client applications, ensuring system reliability through manual testing and feature validation.
- Built dynamic frontend web interfaces using **Next.js** and engineered interactive 3D visual modules utilizing **Three.js**.
- Architected and deployed automated backend workflows using **n8n** to optimize internal data pipelines and system processes.
- Engineered server-side features and RESTful API integrations using **Laravel** to connect frontend views with database schemas.
- Developing an image-generation workflow for an AI influencer platform; managing dataset preparation, training custom **Flux LoRA** models hosted on Hugging Face for identity consistency, and executing workflows in ComfyUI Cloud.

Projects

HomeGenie - On-Demand Home Services Platform *PHP (Custom MVC Framework), MySQL, HTML, CSS, JavaScript*

- Designed and developed a role-based service booking platform with user management, service listings, and inventory tracking.
- Implemented custom PHP MVC architecture, authentication, and CRUD workflows for admins, service providers, suppliers, and customers.

Chatty Chatty - Real-Time Chat Application

React, Node.js, MongoDB, Socket.io, Zustand

- Developed a real-time chat system with secure authentication, online/offline presence, and instant messaging.
- Built real-time communication with Socket.io and Zustand, emphasizing scalable architecture and reliable session handling for a smooth user experience.

Laptop Price Predictor - ML Project

Python, Scikit-learn, Flask, Jupyter Notebook

- Built a machine learning pipeline to predict laptop prices using Random Forest Regression based on hardware features.
- Performed data preprocessing, feature engineering, model training, and evaluation in Jupyter Notebook.

AI-Powered Web Terminal *Python (FastAPI), JavaScript, WebSockets, Google Gemini AI, Nginx, PM2, Ubuntu (DigitalOcean)*

- Developed a web-based Linux terminal that allows users to execute server commands using natural language instead of traditional shell commands.
- Integrated Google Gemini AI to translate user queries into Linux commands and implemented real-time communication using WebSockets.

Other Projects

ClubSync: GitHub | *Next.js, React Native, Node.js* | Cross-platform volunteer platform with real-time updates.
Chill Campus: GitHub | *Next.js, PostgreSQL, WebSockets* | Inter-university social platform with live chat. (Ongoing)
Athagili: GitHub | *Next.js, Supabase, Tailwind* | Culturally focused app with secure multi-role matching profiles.
Book System: GitHub | *React, Spring Boot, Selenium* | Full-stack system integrated with E2E automated test scripts.
SR-Chatbot: GitHub | *Python, Flask, Gemini API* | Web conversational interface leveraging LLM APIs for responses.

Education

University of Colombo School of Computing <i>BSc. in Information Systems, GPA: 3.50 / 4.00</i> Current Rank: 23 Director's List – Year 3, Semester 1 G.C.E. A/L: 2021 Maths Stream with ICT BCC G.C.E. O/L: 2017 8 A's, 1 B	Colombo, Sri Lanka <i>2023–2026</i>
---	---

Additional Information

- **Programming Languages:** JavaScript, TypeScript, PHP, Python, Java, C
- **Frameworks & Libraries:** React.js, Next.js, Express.js, Spring Boot, Laravel
- **Databases:** MySQL, MongoDB, PostgreSQL
- **ORM:** Prisma, Hibernate
- **Cloud & DevOps:** AWS (Basics), GitHub Actions, Docker (Basics)
- **Tools & Practices:** GitHub, Figma, REST APIs, MVC, JWT, Design Patterns (Fundamentals)
- **QA & Testing:** Manual Testing, Unit & Integration Testing, Test Planning, Cross-Browser Testing, Test Automation using Selenium with Java, Postman, Jira

Certifications

AWS Cloud Practitioner Essentials – Amazon Web Services (AWS) Training	<i>Aug 2025</i>
Mastering Agentic Design Patterns with Hands-on Projects – Udemy	<i>Aug 2025</i>
SQL (Intermediate) – HackerRank	<i>Aug 2025</i>
Next.js Fundamentals, v4 – Frontend Masters	<i>Jul 2025</i>
Enterprise Java with Spring Boot – Frontend Masters	<i>Jul 2025</i>
Oracle Cloud Infrastructure 2025 AI Foundations Associate – Oracle	<i>Aug 2025</i>
